INTERVIEWS WITH OSCAR!

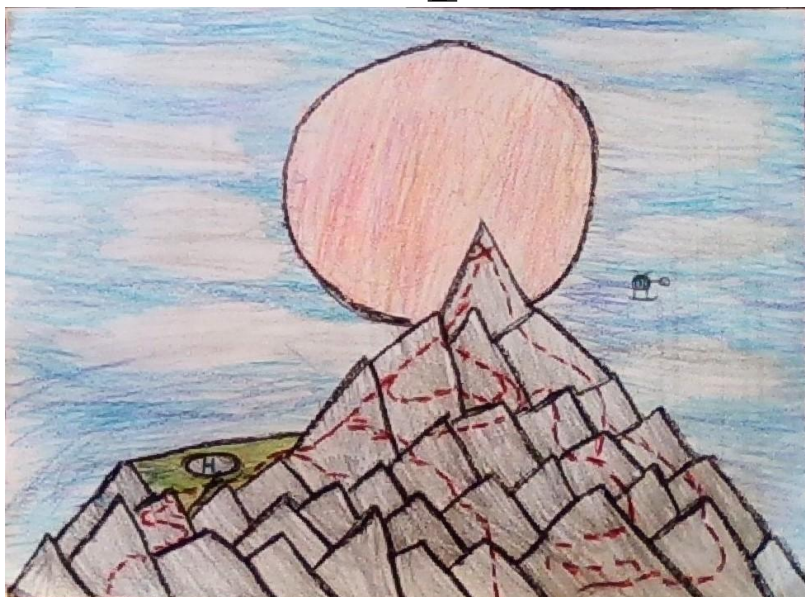

Five weeks ago Mr. Baez came to our school and I had the honor of interviewing him about his time here. I also got to learn about his elementary school. At his previous school the students loved science and robotics and were eager to learn every single day. His vision is that when students graduate they are prepared for college and beyond. Mr Baez's first couple of weeks were very wonderful and exciting and he hopes he can learn every students name.

CLASS UPDATES!

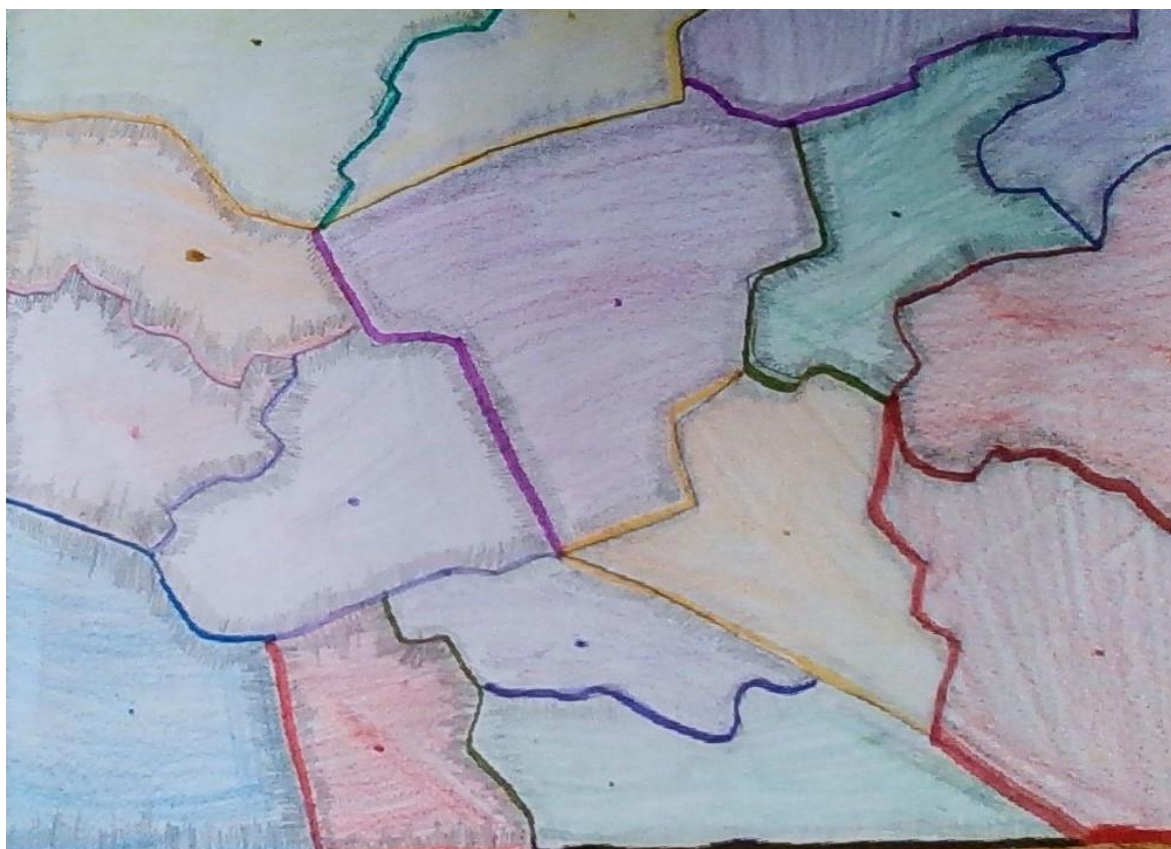

-Josie and Irie

Our class is rehearsing for a play called... Backwards at the Speed of Light! We will perform in June for parents and for the school. We practice every week on Tuesdays and Thursdays with our director Mr. Hughes (Oscars Dad). It is gaining very quick progress. With the help of our director, we are planning out the sets and props. In class we are going over the script and marking down the beats. This is useful to understand the play and help memorize our lines. We also got papers to help us memorize our parts in 10 easy steps. Each scene takes turns reading out their parts and learning what to do to make it better. When our scene is up, we go to separate corners of the room to practice our volume. We also did an exercise to help us learn to control our volume and project. On the board there are the numbers 1 through 10. One at a time we go up and say our name. Mr. Hughes circles the number he thinks matches our volume level and we keep saying our name until we reach ten. One of the weirder exercises we did closer to the beginning was that we each took a turn standing at the front of the class doing nothing for 15 long seconds.

Runner-up

Favorite Art

Soon, we are going to start doing a pen pal project with a class in Italy. We are debating on whether to do one big email that we make together as a class or to do individuals and pair up with students in their class.

This month is Black History Month. For this month the students in this class did a project on an inspirational black figure due on February 22nd. We got to choose a person and make almost any way of presenting them such as a poster, an essay, or a printed out google slideshow. Later, Ms. Gotz is going to hang them up in our classroom for display.

This month, Dr Chelsea (Leo's mom) comes into our class to talk about Diseases. She teaches us about how these diseases affect us, and the inside information on where these germs are sometimes located and the different systems that make up us. We are going to do a project on non-infectious diseases.

This month is Black History Month. For this month the students in this class did a project on an inspirational black figure due on February 22nd. We got to choose a person and make almost any way of presenting them such as a poster, an essay, or a printed out google slideshow. Later, Ms. Gotz is going to hang them up in our classroom for display.

We are also doing an art project inspired by black artist Kehinde Wiley. We have to make a self portrait with a natural background. In our portrait we are wearing clothes of our choice, including things that you love or enjoy. In his art the black people look very free because of the clothes and the setting. They are doing what they want and that is the meaning of the art. Ms. Gotz is planning to put up our art in the black history museum in the multi-purpose room (a big room in our school).

Reviews

THE BIG DEBATE!

No: Subjects like math, science and history are much more important in life than art. You need to know these things to live and get a good job. This is why learning art is definitely not the best subject and maybe un-necessary to learn.

Yes: Art is the best subject because it teaches you fine motor skill and stretches your creativity. Art can also boost confidence which is a necessary skill in life to learn new things. That's why art is the best subject.

If you have an answer, email me at jling0003@mymail.lausd.net. Also, please title your email 'The Big Debate Response'. If I get enough votes, I will post the percentages in the next issue. The responses will be anonymous so no one will know your vote.

DOPE OR NOPE?

By Violet, London, and Josette

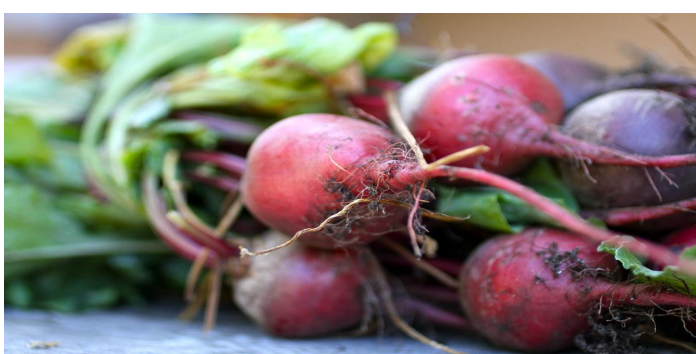

Hamburgers:

Lots of people from all around the world enjoy Hamburgers, and today Hamburgers are one of the favorites in the world. The fun thing about Hamburgers is that you can add anything you want to them! Some people enjoy juicy ripe tomatoes while others enjoy more dry condiments. Hamburgers go from In-N-Out to fancy indoor restaurants. Which means you can find Hamburgers anywhere! So we rate this...

DOPE!

Beets:

Beets are a round bulb with leaves sticking out of the top. Beets taste a lot like radishes, Which are also not that great. Some people make dishes out of beets but the majority of children and adults don't like them. Beets carry lots of vitamin-A and iron. Beats can lower your blood pressure, upset your stomach and give you dizziness if pregnant.

Fun fact about beets is that they have used their juice for red dye since the 1600's. But, overall we rate this...**NOPE.**

THE CITY OF SOULS

A FICTIONAL STORY BY JUNHO AND LEWIS

Once a long long time ago there was a city of souls, I once ventured there and this is the story of that tragic incident. It was May 30th, my tenth birthday. My parents just announced that I could go stargazing with a friend! I couldn't wait until we got to Yosemite park. Now before I tell you my story let me tell you a little bit about myself. My name is Lotto. I'm from California, and I **love** nature. 5 hours later we started the drive to Yosemite. We picked up my friend Jimmy on the way to Yosemite national park. When we got there it was 5:38 precisely, I knew this because of the way the shadow of the tree was facing (I read an entire book about it). We made dinner over the campfire, and I didn't have any meat because I was a vegetarian so I collected some non-poisonous berries. After that we set up the tent and hammock. After that we started stargazing. I had drunk a lot of water on the car ride so I went into the forest. Jimmy also needed to go so he went out to the forest. Once I went I saw something weird so I walked up to investigate. It was a glowing tree. I stuck my head in and it sucked me in, but Jimmy grabbed my ankle but we both ended up tumbling into the hole. We tumbled and tumbled and tumbled down and down and down and down. Just then I thought *how **big** is this tree?* Once we stopped tumbling down I took a second to look around. I saw a sign that said "**City of Souls**"... I looked around for Jimmy and he was unconscious so I decided it was a good time to prank him. I looked around for an art store, but I couldn't find one. All I saw were these ghostly creatures. I turned around and saw one of them **6 inches away!!!** I screamed so loudly it woke Jimmy. Just as he woke him up he started to drift off again so I poked him over and over and over again, "*oh shove off already*" he muttered. Jimmy, Jimmy wake up, we're in a ghost city I said. Wait, what now? he asked. I sighed "Jimmy how long will it take you to realize what I'm saying? **We... are... in...a...ghost...city**". Ahhhhhhhhhhhhh! Jimmy yelled as he tried to claw back up through the tree. "Whoa whoa what are you doing?" I asked. "I'm getting out of here," he said. "Jimmy get back here". "No, nope, not in a million years" he said as he clawed his way out.

Today we are going to talk about two movies such as, *Black Panther Wakanda Forever* and *Matilda Musical*. We highly

recommend that you watch these movies, well if they are in theaters, or just in general. The movie was mainly created for Chadwick Boseman the old actor of black panther. He died of stage four colon cancer in real life in the middle of making the second movie. So with this they had to remake the movie. Now let's dive in, and see what the audience thought. Lets see What Zaeem thought about this movie " I thought that it is action packed and very surprising. It includes a new nation unleashing war on wakanda. So then wakanda gets a new black panther. ★★★★★" And let's see what Junho thought "Wakanda Forever is a exiting movie but ,is slow to get to the point. ★★★★★" And to end it off, we will hear a little from Oscar "Wakanda Forever was an okay movie. It didn't live up to its expectations, It wasn't the greatest because Chadwick Boseman died. It sorta had a more avengers feel, and I would

Like it to be more of a car chase them. ★★★★★" Well there you have it folks Wakanda forever. And now let's move on to Matilda the musical.

Matilda Musical is a movie with story, geniusness, singing, and is based on Roald Dahl's book, Matilda.

Including the Trunchbull, Miss Honey, and of course Matilda!!!! Other characters like Mrs. Wormwood & Mr. Wormwood. In the story, Matilda is a genius and her parents (Mr. Wormwood and Mrs. Wormwood) are not smart.

IMPORTANT INFO ON

by Logan

I love playing chess on chess.com. The Reason why I introduce chess. is because you can play more than just chess online. You can play with a computer, a chess quiz, go into an online tournament, practice, achievements, get help, and even different kinds of variant chess!

If you want to play with a computer you can choose the bot that you want to play with. Also, all of the bots have an engine that shows how good that bot is and how bad it is. You can choose the bot that has the same or close rating as the bot, so you don't overpower the bot or get overpowered by the bot.

There are also 5 kinds of chess puzzles. Normal puzzle, puzzle rush, puzzle battle, daily puzzle, and custom puzzle. A normal puzzle is just a chess puzzle. In puzzle rush, you can choose 3 minutes, 5 minutes, and survival. If you choose 3 minutes you only get 3 minutes to complete as many puzzles as you can and if you choose 5 minutes you have 5 minutes to complete as many puzzles as you can. If you choose survival you don't have a time limit, but if you get 3 questions wrong you're out. In chess battle, you can puzzle battle with other people. In daily puzzles, you can play only one puzzle, but if you didn't complete the past day's daily puzzle you can do it whenever you want to. Puzzle rush survival mode is the most popular puzzle, so if you like chess puzzles you should try puzzle rush survival mode. If you don't have a membership in chess.com you can't do infinite puzzles, so if you want to do infinite puzzles you better get a membership in chess.com

chess. com, you can also try tournaments too. If you are very good at chess you might win the tournament. On chess.com there are levels, and in a league, you play with your same levels. There are wood, stone, bronze, silver, crystal, elite, champion, and legend. I hope you can get legend level.

If you want to practice, there are so many things that you can practice chess. You can practice openings, middle games, end games attacks, defends trading pieces, and even more. You can practice the part that you're bad at or get better.

There are many variants of chess on chess.com. The most popular variants of chess are 4-player chess, duck chess, and fog of war. There is 4-player chess, double bughouse, duck chess, fog of war, crazy house, give away, atomic, set up chess, horde, Chaturthi, 4pc max, 4-player giveaway, self-partner, and custom. My favorite variant of chess is 4-player chess too.

Lastly, you can also play with your friends whenever you and your friend want to play together. I think you should play chess on chess.com because like I said you can do more than just play chess. I hope you play chess on chess.com.

Entertainment

By Zaeem

Well, back on entertainment we will be telling you about some new movies. New online games that you can play on your school computer right now. And maybe a new video game?

So firstly, for some new movies I am sure almost all of you have heard about, it is Black Panther:Wakanda Forever. And if you haven't seen this movie yet you're in luck because come out to homes on 2/1/23. This movie is thrilling and action packed with the surprise of a new nation, and a new black panther.

Now for our second movie, it is Avatar the Way of the Water. It is a sequel to the movie Avatar and it includes a return to the planet Pandora. I am not going to give any more spoilers but it is a pretty decent movie overall. If you have not seen this movie yet. It is still in theaters, and a theater that I highly recommend is called Look.

Now for some games. The first one that is my personal favorite is called ice dodo. It is a game where you are a little block of ice and you move around to complete levels. In the levels, can not fall off, hit the cones or leave the orbit. Whatever that last one means .But I definitely recommend this game because of how awesome it is. Also you can download it on your chrome extensions right now.

The second game that I want to talk about (it is also on the chrome web store) is Boxel 3D. You are a cube and you have to jump across the walls and avoid the sharp and deadly spikes.

And now finally for the mystery video game it is.....

The Legend of Zelda: Tears of the Kingdom.

This is a sequel to The Legend of Zelda: Breath of the Wild. There are a few trailers to this video game, it is coming out May 12, 2023. If you would like to see the trailer to this please click on this link www.zeldatearsofthekingdomtrailer

If you haven't played any other Zelda games I recommend that you at least learn about the history of Zelda. Well before you play tears of the kingdom.

So, that is almost all that we have for this article. But the last thing I want to tell you is that all of this is available to you currently. And I strongly recommend that you do all of this, or at least try this. That is the end of this article, hopefully you enjoyed it.

Interviews with Diego

Diego: How Is It Like to be riding a motorcycle on top of a hot wh

Imparable: when I was little I learned how to ride a Motorcycle but then I saw these cool hot wheels so I was liking what If I could be on a motorcycle and a car so ya.

Diego: Well, what was your favorite food when you were little?

Imparable: Well I loved hamburgers when I was little and I always like getting those toys at Mcdonald's.

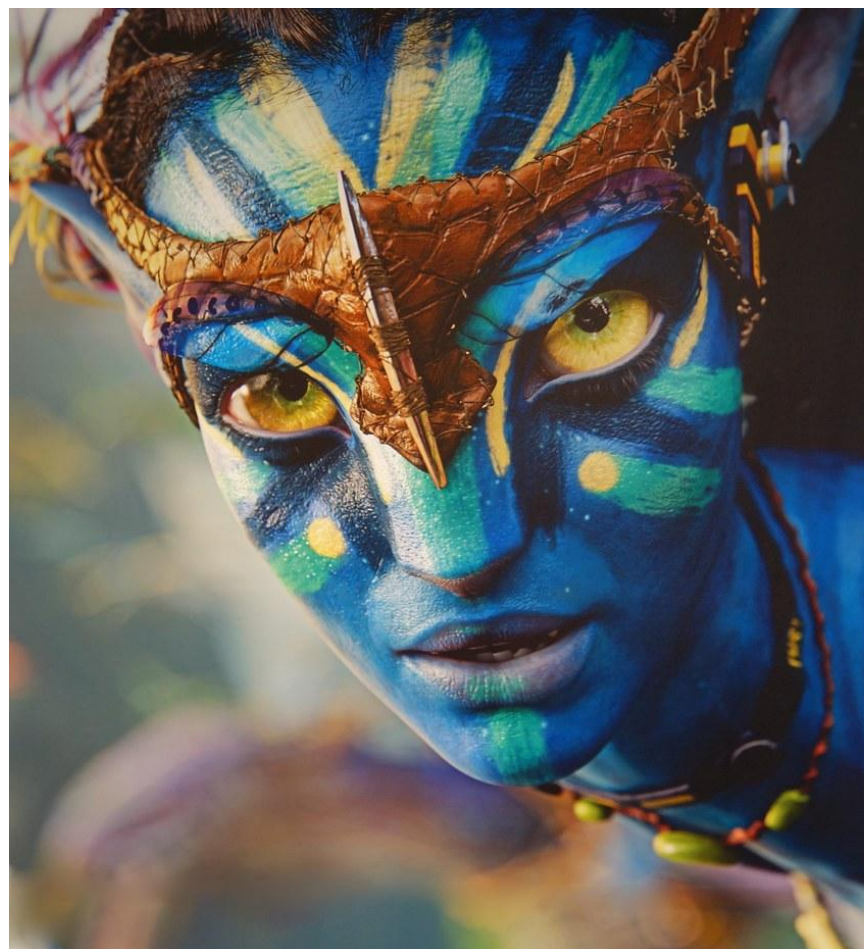

Diego: Before you were little did you want to be a superstar?

Imparable: Well yes I always wanted to do something to change world thoughts so I was gonna be unique.

Diego: Did you get bullied often?

Imparable: Yes I got bullied often they always said I was weird so they always called me names like dandlemotor And you know what that means It means like your face is bad.

Diego: Wow well you'd get bullied often so that's the end of this Interview bye!

FIRE SALAMANDER

by Leo

Salamanders are truly a wonderful species.

They have a large range of sizes from the Chinese giant salamander, which can be up to 6 feet long! To the tiny thorius arboreas, which is only 16 mm. Salamanders' lifestyle features lots of climbing, swimming, and for some species burrowing.

The fire salamander lives in the forests of central Europe. Their diet is mainly slugs, spiders, earthworms, millipedes, and various insects.

Salamanders show if they are toxic (or are pretending to be) by using vivid, bright colors to show their toxicity. The salamander pictured is named the Fire salamander. A fun fact about them is that they are one of Europe's largest salamanders.

Fire salamander venom is a neurotoxin. It works by striking the spinal cord and causing respiratory failure. This is fatal because you can't live without oxygen. Luckily for humans, it only causes skin irritation... unless you eat it.

Fun fact! Fire salamanders got their impressive name because ancient people wrongly thought that they were born in fire.

Fun Fact! Unlike most other amphibians, they give live birth!
